

Worksheet No. XX: Experiment - Carbon Dioxide and VOC Sensor

This may be the CCS811 or the MG811 depending... For now I will write it for the CCS811 CO2 and TVOC sensor

Background

Gas Sensor info sheet

Need to figure out what the challenge here is! Maybe sensing temperature external to the chip and using it for calibration. We could also tell them what each Signal does and have them figure out the connections.

Equipment

Worksheet No. XX
